A.A.D.A.A. Goals & Purposes

- Become aware of the substance abuse problem in our society and how it affects our families, communities, and ourselves.
- Become informed as to the facts – and be ready to dispel the myths – about alcohol and other drug use so that the subject can be freely discussed within the family unit and in and community settings.
- Recognize that the role of community members and parents requires responsible behavior and clear positions regarding alcohol and other drug use in our own family and within the community.
- Help youth become, capable adults by providing opportunities that promote self-image and critical life skills.
- Encourage and sponsor creative social activities that are drug-free settings.
- Encourage parents to host well-supervised parties for youth that limit the number of guests to a controllable number and work to develop family standards that prohibit the use of alcohol and drugs by adolescents in the home at any time.
- Provide opportunities that allow families to communicate with legal, medical agencies, social service agencies, and with other families so that a consistent message concerning youth behavior is established within the community.
- Support school and law enforcement policies regarding the use of alcohol and other drugs by persons within the community and encourage appropriate and consistent consequences.
- Request and endorse comprehensive prevention programs for grades Kindergarten through 12th that deal with alcohol and other drugs in the local school system.

The Ted Leszkiewicz AMVETS

Against Drug and Alcohol Abuse (AADAA) Program
